Are of a type or size for which there is a lack of prior knowledge and experience as to what the potential adverse impacts may be and their size or significance; or

Where the significance of the potential environmental or social impacts or the sensitivity/vulnerability of the recipients of those impacts requires a high level of environmental and social management expertise and skills, and continued strict control and supervision throughout the life of the Project.

**(c) Initial Environmental Examination or IEE Type Project** means a Project judged by the Ministry to have some Adverse Impacts, but of lesser degree and/or significance than those for EIA Type Projects. It means generally those which:

Are limited in scope or size;

Have well known environmental and social impacts that for the most part are temporary, local and reversible; or

Notwithstanding any categorization set forth in Annex 1 'Categorization of Economic Activities for Assessment Purposes', the Ministry reserves the right to change the type of the Project as necessary, if the Ministry determines that special circumstances so warrant to require a Project that would otherwise be required to complete and submit an IEE or an EIA or to exempt a Project from completing any IEE or EIA assessment.
27. For purposes of Screening, the Ministry may at its discretion elect to treat Projects that are logically or economically linked, or which have the same or related proponents, or which are sequential in time, as a single Project. Components of basic infrastructure (such as an access road, transmission tower or waste disposal facility) that are required for a larger Project (such as a mine or a power plant) shall be considered to be part of that larger Project. In such circumstances, the Ministry may determine whether an IEE or an EIA will be required for the Projects that are treated as a single Project.
28. In accordance with Article 23, in making its determination as to the type of environmental assessment a Project or Project expansion will require, the Department shall in addition to the provisions in Article 25 and the type and size categorization in Annex 1 'Categorization of Economic Activities for Assessment Purposes' consider the following factors in accordance with Ministry guidance:

  - b) the interest of public health and safety;

- c) the interest of national security;
  - d) the lifespan of the Project;
  - e) protection of cultural and religious norms, and historical and religious heritage;
  - f) protection of areas having a fragile ecosystem;

  - l) adoption of new technologies;
  - m) population density;
  - n) national, regional and global climate change conditions;
  - o) likely trans boundary impacts;
  - p) likely residual impacts or effects occurring some years after Project closure; and
  - q) other factors as the Ministry may determine.
29. Within fifteen (15) working days of receiving the complete Project Proposal, the Department shall determine the type of environmental assessment (EIA, IEE, or none) which the Project will require, and the Department shall inform the Project Proponent in writing as to such determination in accordance with the Ministry guidance.
30. The Ministry shall periodically review and, as it may deem necessary, revise Annex 1 'Categorization of Economic Activities for Assessment Purposes'.

## **ANNEX 1**

### **Categorization of Economic Activities for Assessment Purposes**

- a. This Annex provides guidance as to whether an IEE or EIA is required for any proposed project or activity. If, as a result of that determination, an IEE or an EIA is determined to be required, then the proponent of the project or activity will be obliged to prepare, obtain approval for, and implement an appropriate EMP in respect of the proposed project or activity. Any appeal from such determination must be made in accordance with the EIA Procedure.
- b. If a Project Proponent of an existing project or activity intends to expand that project or activity, then the Department shall consider and use the type and size thresholds specified in the categorization below as the basis for determining whether such expanded project or activity will be required to conduct any additional assessment, either in the form of an IEE, an EIA or an EMP.
